SUMMARY

Information Systems undergraduate at Universitas Indonesia passionate about solving business challenges through strategic thinking, data-driven analysis, and technology. Experienced in leadership, educational program development, and student advocacy, with a growing interest in consulting, product strategy, and digital innovation. Committed to delivering user-centered solutions with measurable impact.

WORK EXPERIENCE

HR Software Engineering Academy — Compfest 18

March 2026 - Current

- Assisted in disseminating information regarding staff recruitment openings to designated specific division.
- Coordinated the administrative screening and interview process for prospective staff, from initial selection to final onboarding.

Super Member — Google Developer Group on Campus UI

January 2026 - June 2026

- Applied Python, Pandas, and NumPy to conduct data preparation, exploratory data analysis (EDA), and basic feature engineering through hands-on projects and structured workshops, strengthening analytical and data-driven problem-solving skills.

Teaching Staff — Betis Fasilkom UI

January 2026 - March 2026

- Guiding the learning process with 100+ prospective UTBK participants by providing materials presented in PPT format accompanied by quizzes that are tested.

Advocacy & Student Welfare Intern — BEM Fasilkom UI

September 2025 - December 2025

- Operated and coordinated an interactive mental-health themed game booth during the faculty's welfare seminar, engaging 100+ participants.
- Led and managed the Advocacy & Student Welfare social media initiative, delivering educational content and facilitating student aspiration outreach, with contributions addressing contemporary social stigma issues.

AWARDS

Finalist ShARE Global Case Summit 2026

July 2026

- Achieved finalist status in a prestigious business case competition, pitching strategic business recommendations tailored to Shopee's current market dynamics and digital ecosystem.

EDUCATION
